MAUSAM CHATURVEDI

Moradabad, Uttar Pradesh, India | +91 9548431062 | mausamchaturvedi40@gmail.com |
LinkedIn:linkedin.com/in/mausamchaturvedi-4b1251371 | GitHub: github.com/Mausamchaturvedi

PROFESSIONAL SUMMARY

Motivated and detail-oriented BCA graduate with a strong foundation in programming, database management, and web development. Skilled in HTML, CSS, JavaScript, Python, SQL, and Java fundamentals. Passionate about learning new technologies and solving real-world problems through software development. A quick learner with excellent communication, teamwork, and problem-solving skills, seeking an entry-level Software Engineer role.

EDUCATION

Master of Computer Applications (MCA) — Currently Pursuing *2026 – 2028*
Chandigarh University

Bachelor of Computer Applications (BCA) *2023 – 2026*
Teerthanker Mahaveer University, Moradabad | CGPA: 8.49/10

Class XII (Senior Secondary), CBSE *2023*
K.C.M School

Class X (Secondary), CBSE *2021*
K.C.M School

TECHNICAL SKILLS

- Programming Languages: Python, Java
- Frameworks/Libraries: Tkinter, Flask, Django
- Web Technologies: HTML, CSS, JavaScript
- Database Management: MySQL, SQL
- Tools & Technologies: VS Code, Android Studio, GitHub, MS Office (Word, Excel, PowerPoint)
- Concepts: OOPs, DBMS, Computer Networks

PROJECTS

FIT-NEST — AI Fitness Coach Android Application (Java, XML)

- Developed a feature-rich Android fitness application providing workout guidance, exercise video tutorials, BMI-based health monitoring, and workout reminders.
- Implemented AI-style fitness chat for diet and workout suggestions.
- Integrated notification system to warn users about unsafe workout conditions and enabled real-time notifications.
- Added a BMI calculator to evaluate users' health status and provide personalized suggestions.
- Designed a clean, responsive UI using XML and Material Design principles; used Intents and Fragments for smooth navigation.
- Developed personalized workout plans based on user goals and body metrics, with exercise progress tracking.
- Optimized application performance for a smooth user experience; tested and debugged using Android Studio.

FIT-NEST Pro — Fitness Management System (Python, Flask, SQLite, Bootstrap, HTML/CSS)

- Developed a web-based fitness tracking platform with secure user registration and login functionality.
- Implemented BMI calculation, weight tracking, and fitness progress monitoring features.
- Created a workout library module to record and manage completed workout activities.
- Designed and integrated SQLite databases for storing user profiles, workout logs, and health metrics.
- Applied password hashing and session-based authentication to ensure application security.

Smart Voice Greeting Assistant (Python, pyttsx3, datetime)

- Built a voice-enabled assistant that delivers personalized greetings based on the time of day.
- Implemented real-time date and time announcements using Python's datetime module.

- Added robust error-handling and fallback mechanisms to ensure uninterrupted voice output.

Basic Calculator Android Application (Java, XML)

- Developed a calculator app performing addition, subtraction, multiplication, and division with a simple, user-friendly interface.

AI Fitness Assistant (Python)

- Developed a console-based fitness management application featuring secure user registration and login.
- Implemented BMI calculation and calorie estimation modules to provide health-related insights.
- Designed a personalized workout recommendation system based on users' fitness goals.
- Utilized modular programming techniques to create a scalable, maintainable application structure.

INTERNSHIP

Android Development Intern — Teerthanker Mahaveer University, Moradabad (UP) *Jun 2025 – Jul 2025*

- Learned Android development concepts using Kotlin and practiced app architecture patterns like MVVM.
- Built basic Android applications using Room, LiveData, and ViewModel.
- Designed responsive user interfaces using XML layouts and Material Design components.
- Implemented RecyclerView, Intents, Fragments, and Navigation Components.
- Participated in code reviews, fixed application bugs, and improved UI responsiveness.
- Debugged and tested applications using Logcat, Android Emulator, and physical devices.

SOFT SKILLS

- Prompt Engineering
- Communication
- Team Collaboration
- Analytical Thinking
- Leadership
- Problem Solving
- Decision Making

CERTIFICATES

- Mobile Application Development using Android (Kotlin) – Grade A (TMU & IEEE Student Branch | Jun–Jul 2025)
- NPTEL Elite — Database Management System, IIT Kharagpur (2026)
- NPTEL Elite — Programming in Java, IIT Kharagpur (2025)
- Certificate of Participation — VBYLD 2027 Quiz, Ministry of Youth Affairs & Sports (Sep 2026)
- Java Training — Spoken Tutorial, IIT Bombay (Edu Pyramids)
- Introduction to Computers Training — IIT Bombay (2024)

LANGUAGES

- English — Professional Working Proficiency
- Hindi — Native Proficiency

DECLARATION
